

# Build a Cave or Natural Bridge

CREATE • EXPLORE • IMAGINE

Alabama is home to amazing natural wonders, including caves and natural bridges. In this activity, you will build your own cave or natural bridge using blocks, clay, or paper.

## Directions:

1. Choose to build a cave or a natural bridge.
2. Gather your materials.
3. Build your structure using blocks, clay, or paper.
4. Make it strong and see if it can stand on its own.
5. Add details like rocks, trees, or a path.
6. Be creative and have fun!

## Materials You Could Use:

- Building blocks (LEGO, wooden blocks, etc.)
- Modeling clay or playdough
- Construction paper or cardboard
- Tape or glue
- Rocks, sticks, or other natural materials (optional)
- Toy figures or animals (optional)

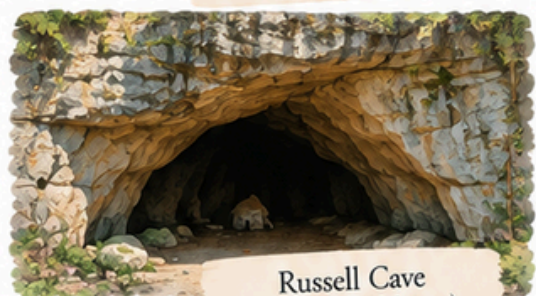

## You Could...

- Make a cave with an opening.
- Build a natural bridge (a rock arch).
- Try different shapes and materials.
- Test how strong it is.
- Take a picture of your finished creation.

Natural Bridge  
(DeSoto State Park)

Russell Cave  
(Northeast Alabama)

*"The heavens declare  
the glory of God;  
the skies proclaim  
the work of his hands."*

PSALM 19:1
