

Build Like the Pioneers

CREATE • BUILD • EXPLORE

Early settlers in Alabama needed to build cabins for their families and bridges to cross rivers and streams. In this activity, you will build a small bridge or cabin using craft sticks, blocks, or other materials.

Option 1: Build a Bridge

Use craft sticks, blocks, or other materials to build a small bridge. Think about how bridges are strong and can hold weight.

Option 2: Build a Cabin

Use craft sticks, blocks, or other materials to build a small log cabin. Think about how cabins provided shelter for pioneer families.

Materials You Could Use:

- Craft sticks
- Building blocks (LEGO®, wood, etc.)
- Toothpicks
- Glue or tape (optional)
- Cardboard
- Other creative materials

Examples for Inspiration:

Plan Your Build

Before you start, draw a quick plan of your bridge or cabin.

Think About It...

- What materials did you use?
- What was the most challenging part of your build?
- How did you make it strong?
- Why do you think bridges and cabins were important to early settlers in Alabama?
