

# Blast Off!

BUILD • DESIGN • EXPLORE

Alabama is home to the U.S. Space & Rocket Center in Huntsville, where people design and build real rockets and spacecraft. In this activity, you will build a paper rocket or design your own spacecraft and use your imagination to explore beyond our world!

## Option 1: Build a Paper Rocket

1. Use the template below or create your own.
2. Cut out the pieces.
3. Fold and tape or glue them together.
4. Decorate your rocket.
5. Stand it up and get ready for takeoff!

## Option 2: Design Your Own Spacecraft

1. Draw a picture of your own spacecraft.
2. Label the important parts (engines, wings, windows, etc.).
3. Give it a name.
4. Tell where it would go and what it would do.

## Materials You Could Use:

- Paper (regular or cardstock)
- Scissors
- Glue or tape
- Markers, crayons, or colored pencils
- Craft supplies (optional)

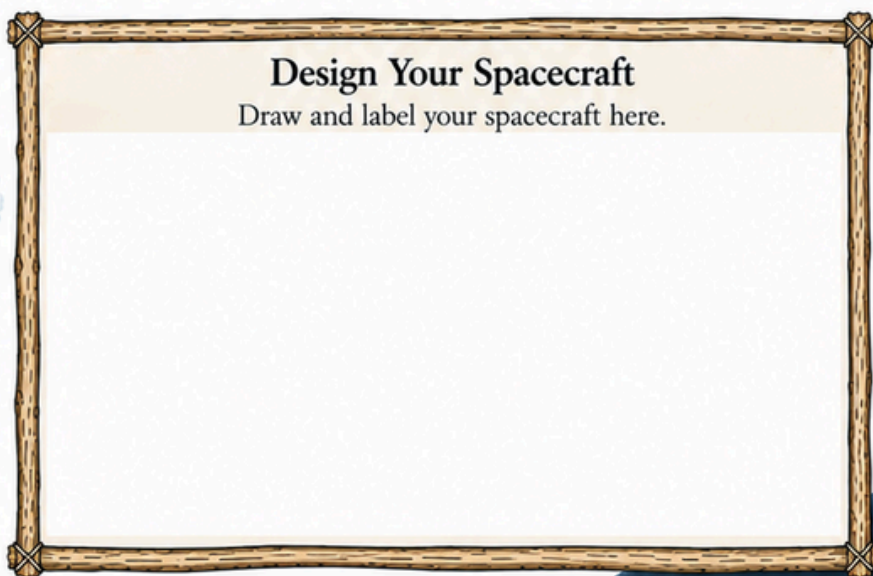

Aim high  
and let your  
imagination  
soar! ★

Example  
Paper Rocket

## Design Your Spacecraft

Draw and label your spacecraft here.

## Think About It...

- What will you name your rocket or spacecraft?
- Where would you like to go?
- What would you see or discover?
- How do you think space exploration helps people on Earth?

*"The heavens declare  
the glory of God; the skies  
proclaim the work of  
his hands."*

PSALM 19:1
