

Pack a Pioneer Wagon

CUT • CHOOSE • PACK

Early settlers had to be prepared for a long and difficult journey.
Choose the items a pioneer family would need, cut them out, and glue them in the wagon.

Think About It...

- Why were these items important for the journey?
- What would happen if they didn't have them?
- What other items might a pioneer family have packed?

Pioneers had to pack carefully and only take what they truly needed.
